English

Fun when played with some friends on a big TV. App controller seems to work well enough. This is quite like (Super) Skidmarks of the 16bit era (Amiga/Mega Drive), or Ivan 'Ironman' Stewarts' Super Off Road which was on a million systems. I enjoyed it for a fiver and will be breaking out at a party again, in between Overcooked sessions!. Simple but really funny game, especially when playing with friends.

There should be more tracks and perhaps some tricks like loops, jumps and other needful things.. It's a fun game, but I wish there were more maps, online multiplayer, and car customization.. Fun game if you have a party to play with. Easy to learn and master too. Just wish it comes with car customisation or some varieties at least and more track to play with.
