Award-winning software company Toontrack has been a pioneer in digital music production since they released their first product in 2001. With a variety of offerings, the company brings computer users high-quality virtual instruments and sounds to use in their productions. Including drums, basses, guitars, keyboards, stringed instruments and more - there is even an offer for vocalists to add "human touch" to your mix with their Vocalist Vox pack. This "Midi Packs Collection" offers you an impressive selection of MIDI files to use in your music production. The quality of the sounds is first-rate compared to other products on the market, and further enhancements can be found in their additional software packages. For example, Toontrack has bundled several sample packs with their MIDI Packs Collection offer. This gives you an extra offering of up to 4 GB (TW24) or 8 GB (TW32) included samples for each MIDI file included in this package. The pack is bought by itself, but requires TAE Effects Bundle which you will want to purchase separately if you wish to use delay effects for more than one sound at a time (i.e. Guitar+Vox). The download comes with a version for each DAW you have installed. The pack itself costs $174 USD for the collection of Guitar, Bass, Keys, Synth/Orchestra and Vocal packs. If you are looking to find top-quality MIDI files to use in your music production without breaking the bank - Toontrack's Midi Packs Collection is a solid choice for your needs. The download comes with a version for each DAW you have installed and it will be compatible with Toontrack's other products, such as: is a family of digital instruments and effects that can be purchased separately. This MIDI packs collection is provided together with additional TAE Effects Bundle if you wish to use delay effects for more than one sound at a time (i.e. Guitar+Vox). Title: Toontrack TW32 Acoustic Pop Acoustic Guitar MIDI Pack Award-winning software company Toontrack has been a pioneer in digital music production since they released their first product in 2001. With a variety of offerings, the company brings computer users high-quality virtual instruments and sounds to use in their productions. The Acoustic Pop Acoustic Guitar MIDI pack gives you arrangements for solo acoustic guitar, two singers, strings and drums. They are all easy to use with just one click, so you can stay focused on your creative process rather than running around tweaking parameters. The sound quality is excellent - the instruments are easy to play and fit your song easily.
